

ClaimMobile: Supporting the HealthyLife Voucher Project

Melissa R. Ho, PhD Candidate

University of California, Berkeley School of Information

HealthyLife is a voucher program that reimburses existing service providers for services rendered

But service providers are geographically distant, program management is information intensive and errors and other sources of delay affect service provision, quality of care, and payment timeliness

ClaimMobile moves work from the paper form... to a mobile phone

VMIS CLAIM FORM		No.
Personal Information		Date
Client's Name		Visit Type: <input type="checkbox"/> Consultation <input type="checkbox"/> 1 st Follow-up <input type="checkbox"/> 2 nd Follow-up <input type="checkbox"/> 3 rd Follow-up

- Using mobile devices as a platform for facilitating information management:
 - Dynamic, self-verifying forms facilitate training and increases protocol adherence, improving patient care
 - GPRS-based form submission and approval
 - Phone-based in-clinic data management
 - Improve communications loop between service providers and program management agency
